

Considering graduate school?

Join us for a free weekend,
see Auburn's exciting research environment!

You are only a few minutes away from an invitation to visit the Department of Chemical Engineering at Auburn University this spring. Send your résumé to the Graduate Program Committee if you want to experience true southern hospitality!

Qualified students will receive an **all expenses paid trip** to Auburn University and get a unique opportunity to interact with the faculty of our dynamic department, which is recognized as one of the best research programs in the Southeastern United States. Current research encompasses all areas of traditional chemical engineering as well as interdisciplinary areas including biotechnology, nanotechnology, sustainable engineering, and green chemistry.

The loveliest village on the Plains... *War Eagle!*
