

Auburn University

Department of Computer Science and Software Engineering (CSSE)

Lecturer/Senior Lecturer Position

CSSE invites applications for a full-time non-tenure-track teaching faculty position at the level of Lecturer or Senior Lecturer to begin in Fall 2018. The primary responsibility of a successful candidate for this position is to teach a selection of courses in CSSE's undergraduate programs: BS in Computer Science, Bachelor of Software Engineering and Bachelor of Wireless Engineering (Software Option). The successful candidate will be expected to bring innovation and enthusiasm to teaching. Level and salary will be commensurate with qualifications and experience.

A successful candidate must possess a Master's degree in Computer Science, Software Engineering, or a closely related field from an accredited institution prior to the date of appointment. While not mandatory, a PhD degree in Computer Science, Software Engineering or a closely related discipline, teaching experience in the discipline and/or industrial experience will be considered in the selection process. Excellent communication skills are required.

This is a nine month appointment with the possibility to also teach during the summer term for additional compensation. Under typical circumstances, the teaching load will be three courses per fall and spring semesters. The summer teaching load will be up to three courses depending on departmental needs.

The CSSE Department currently has 21 full-time tenure-track faculty and five full-time teaching faculty. The department supports strong graduate (M.S. and Ph.D.) and undergraduate programs, as well as a vibrant research program. Student enrollment for Fall 2017 is 915 undergraduate and 169 graduate students. Faculty research areas include artificial intelligence, architecture, computational biology, computer science education, data science, energy-efficient systems, human-computer interaction, Internet of Things, learning science, machine learning, modeling and simulation, multi-agent systems, networks, security, software engineering and wireless engineering. Additional information about the department can be found at <http://www.eng.auburn.edu/csse>.

Established in 1856, Auburn University is one of the nation's premier public land-grant institutions. It is ranked 46th among public universities in the U.S. News and World Report 2018 Best Colleges Rankings. Auburn maintains high levels of research activity and high standards for teaching excellence, offering Bachelor's, Master's, Educational Specialist, and Doctorate degrees in agriculture, engineering, and the arts and sciences. It is nationally recognized for its commitment to academic excellence, a positive work environment and student engagement. The university's picturesque main campus covers 1,875 acres, and includes the entire southwest quadrant of the city of Auburn.

Auburn residents enjoy a thriving community, recognized as one of the "best small towns in America," with moderate climate as well as easy access to major cities, beaches and mountain

recreational facilities. Auburn is located 100 miles southwest of Atlanta and 50 miles northeast of Montgomery on the rapidly developing I-85 corridor. The Auburn-Opelika metropolitan area has a population of over 150,000, and has excellent public school systems. A nationally recognized hospital, East Alabama Medical Center, is located in Opelika.

Applicants should submit a cover letter, curriculum vita, statement of teaching philosophy, unofficial transcripts and names and contact information for three references. Only contact information for references need to be submitted, letters are not required at application time. While not required, teaching portfolios and teaching evaluations may be submitted and will be considered during the selection process. Submit all materials to:
<http://aufacultypositions.peopleadmin.com/postings/2797>

The applicant review process will begin on May 15, 2018 and continue until the position is filled. Candidates selected for this position must be able to meet eligibility requirements to work in the United States at the time of appointment and continue working legally for the proposed term of employment. In support of its strategic plan, Auburn University maintains a strong commitment to diversity with standards to help ensure faculty, staff, and student diversity through recruitment and retention efforts. Auburn University is an EEO/Vet/Disability Employer.
