

100 Women Strong Annual Fellowship

Nominations due February 15, 2019

Two \$2,000 fellowships shall be awarded each year to Auburn University graduate students or incoming graduate students who:

- Are enrolled in the Auburn University Graduate School and accepted to a graduate program in the Samuel Ginn College of Engineering.
- Have a minimum college GPA of 3.0 on a 4.0 scale.
- Are recommended by their department graduate program officer or Department Chair.

Although the donor's intent is to increase the number of females in the engineering profession by creating this fellowship, the gender of the applicants shall not be the controlling factor in awarding the fellowships.

Fellowships shall be awarded at a minimum of \$2,000. The amount of each fellowship shall be disbursed at regular intervals during the school year in accordance with normal university policies.

Each fellowship is for one academic year. Prior recipients are not disqualified from consideration for this fellowship during subsequent years. Should a recipient become ineligible, a new recipient may be named using the criteria stated above.

Students shall submit an application including a résumé and a maximum of one page essay on how they exemplify a 100 Women Strong Scholar.
