

Biosystems Engineering Fall 2009 Seminar Schedule*

Date	Title	Speaker
Tuesday, Oct 13	Application of WEPP model for the assessment of sediment yield at hillslope and watershed scale	Anurag Srivastava
Tuesday, Oct 20	Bio-oil Production from Fast Pyrolysis & Upgrading	Suchithra Thangalazhy-Gopakuma
Tuesday, Nov 3	Technique for Establishing Vegetation for Long-Term Erosion Control on Disturbed Slopes in Alabama	Ali Baharanyi
Tuesday, Nov 10	Surface and Subsurface Transport of Phosphorus from Surface and Subsurface applied Poultry Litter	Jasmeet Lamba
Tuesday, Nov 17	In-field evaluation of pressure compensated subsurface drip irrigation	Tye Harbuck
Tuesday, Dec 1	Evaluating Challenges in Small-scale On-farm Biodiesel Production	Daniel Mullenix

* Unless otherwise announced, all seminars meet in Room 302 Corley Building at 12 noon and are conducted as brown bag seminars. Bring your lunch and enjoy.
