The Master of Engineering Management degree, housed in the Department of Industrial and Systems Engineering and the Thomas Walter Center for Technology Management, allows those who are currently working in an engineering-related field to fulfill their career potential by earning a master’s degree at their convenience. The degree ranks No. 5 among the Top 50 Online Master’s Degrees in Engineering Management, according to BestCollegeReviews.org. It is the only one of its kind offered in Alabama and appeals to individuals working in the aerospace, biosystems, chemical, civil, computer science and software, electrical and computer, industrial and systems, materials, mechanical and wireless industries. The GRE is not required for eligible students who have earned a 2.75 GPA from an ABET-accredited engineering program. Applicants with a non-engineering bachelor’s degree are eligible to apply if they have five years or more of related work experience. Each applicant is reviewed on a case-by-case basis.
