ABOUT THE CONFERENCE

Auburn's Civil Engineering Department and the Program Committee have designed the 62nd Annual Alabama Transportation Conference for federal and state highway personnel, road building contractors, general contractors, heavy construction contractors, utility contractors, county engineers, consulting engineers, construction material vendors, researchers, professional society representatives, and university faculty members. This event will provide an opportunity for these individuals to share innovative advances in transportation planning, design, construction, operations and maintenance.

Technical sessions, sit-down luncheons, and breaks will be provided to create a forum for the exchange of ideas between transportation engineering and construction professions. The conference will also include a Trade Exhibit Hall with exhibits available to enhance learning and provide additional networking opportunities for all participants. Over the last few years, conference attendance averaged approximately 900.

EXHIBITOR INFORMATION

All exhibitors will receive one registration (includes lunches and refreshments during breaks) for the conference and a 10' x 8' booth. Each booth comes standard with pipe and drapes, one table, two chairs, one wastebasket and one company sign. No portion of an exhibit may exceed the dimensions of the assigned booth.

Within a few days of your registration completion you will be contacted by a representative from Fern Expo. This representative will work with you to customize your booth based on your specific needs. This includes electricity, internet, additional furniture items, etc. **Please note there will be additional fees assessed for any additions to the basic amenities of your booth.**

Booths will be assigned on a first-come first-served basis. Exhibits will be set up in the same location as both sit down luncheons and all refreshment breaks. The Trade Exhibit floor plan is available at <http://eng.auburn.edu/files/t2/atcexhibitfloorplan.pdf>.
