Surveying

2007 National Readjustment of the North American Datum 1983 (FLSM #0007651)  V08G – 3
Construction Surveying (FLSM #0004019)  V09D – 4
Geodesy for Engineers and Surveyors (FLSM #0004029)  V03A – 6
Great Surveyors and Their Surveys (FLSM #0008277)  V12B – 3
History of The Government Land Office (FLSM #0007650)  V08F – 3
History of Surveying Instruments: Impact and Accuracy (FLSM #0006989)  V00D – 3
Improving Surveying Field Procedures using the Total Station (FLSM #0006990)  V05B – 6
Professional Ethics for Land Surveyors (FLSM #0006287)  V02D – 3
Retracing and Proofing Original GLO Section Corners (FLSM# 0008492)  V13E – 3
Role of Engineers/Surveyors in GIS (FLSM #0007376)  V06G – 6
Standards of Practice for Surveying in Alabama  V03E – 6
State Plane Coordinates (FLSM #0004034)  V01D – 6
Surveying With GPS (FLSM #0007375)  V07D – 5
The Art of Land Surveying (FLSM #0008103)  V11N – 3
The Colonial Land System and The Building of America (FLSM #0004031)  V00E – 3
The Pincushion Effect (FLSM #0007220)  V07A – 3
The Rectangular Land System: Subdivision of Public Lands (FLSM #0004032)  V00F – 3
Understanding Boundary Law, Case Law and Principles of Surveying Law (FLSM #0007219)  V11B – 3
Vertical Datums and Leveling (FLSM #0004033)  V05C – 6

Management, Ethics and Legal (New York state board will not approve courses in this section)

ADA Self-Evaluation/Transition Plans  V16F – 2
Business Ethics Module I (FLSM #0007648)  V10D – 3
Business Ethics Module II (FLSM #0007649)  V10E – 3
Buying or Selling an Engineering or Land Surveying Firm (FLSM #0006286)  V02C – 3
Contract Administration: Change Order Basics  V03H – 5
Contracts for Engineers and Surveyors (FLSM #0004021)  V10G – 3
Decision Making Using Business Metrics  V14P – 3
Effective Marketing of Professional Services for Engineers and Surveyors (FLSM #0004026)  V10A – 3
Engineering Economic Analysis (FLSM #0006987)  V07B – 3
Engineering Math  V09C – 6
Essential Financial Skills Part 1  V14K – 3
Essential Financial Skills: Part 2  V14T – 3
Essentials of Energy Management  V18A – 2
Essentials of Quality Systems Auditing (based on ISO 19011)  V18B – 2
Establishing Your Engineering or Surveying Firm (FLSM #0004024)  V10B – 3
Ethics and Professionalism (FLSM #0004023)  V10F – 3
Managing Change: A Process Model that Works  V16H – 1
On-Time: Project Scheduling Basics (FLSM #0006988)  V03D – 5
Overview of Elements of Public Right-of-Way Accessibility  V16G – 2
Project Management  V14N – 3
Selling and Negotiating for the Technical Professional  V14L – 3
Technically Speaking: Presentation Skills For Engineers and Technical Professionals (FLSM #0007218)  V12K – 2
Technically Speaking: Part 2: Leadership Essentials for Engineers and Technical Professionals  V14H – 2
Ten Essentials: Common Sense Principles for Business  V16D – 2
Tips for Auditing ISO 9001, IATF 16949, and AS 9100 Quality Systems  V13C – 1
Tort Liability and Ethics for Public Agencies  V03G – 5
Understanding AS 9100D  V17F – 2
Understanding ISO 9001: 2015  V16N – 2
Understanding ISO 14001: 2015  V16T – 3
Writing Effectively: Written Communication Skills for Engineers and Technical Professionals  V14A – 2

Essentials of Effective Problem Solving

Effective Problem Solving Methods  V17A – 2
Process Analysis for Problem Solving  V17B – 1
Dealing with Human Error Problems  V17C – 1
Tools for Problem Solving  V17D – 2
Error-Proofing Essentials  V17E – 1

Risk Management

Risk Management Essentials  V16B – 2
Risk Management Tools and Techniques  V16C – 2
Failure Mode Effects Analysis (FMEA)  V16P – 2
Managing Project Risk(s)  V16Q – 2
When Disaster Strikes-Contingency Planning  V16R – 1

*Prices in effect till October 1, 2019

Auburn University is an equal opportunity educational institution/employer.
Corporate Continuing Education Courses

• Quality courses you can trust
• Dynamic instructors
• Education at your fingertips 24 hours a day
• Cost effective method to educate your workforce and increase your competitiveness

Engineering Continuing Education
Auburn University
217 Ramsay Hall
Auburn, AL 36849-5391
Email: engce@eng.auburn.edu

Call today at 1.800.446.0382 or 334.844.4370
For sample videos of our courses please visit our website at www.eng.auburn.edu/epd
Organizational Cost Benefit Example for a 3-hour Course

7 individual course orders at $60 per hour:
$180 x 7 = $1260 - $900 (org. order) = $360

10 individual course orders at $60 per hour:
$180 x 10 = $1,800 - $900 (org. order) = $900

Organization price at $300 per hour
1 organization course order for a 3-hour course
(Certification extra)
$900 x 1 = $900

Savings of $360 and $900!

Certification is $30 per employee for an organization order - we have found that many organizations only certify some employees, or if an employee wants certification for themselves it's at a very reasonable price.

Unlimited number of employees may view the courses
- Earn continuing education units (CEUs); $30 per certificate
- Convenient access to online courses 24 hours a day.
- You may view on PC, MAC, iPad, or MP3 player

Corporate pricing rate - $300 per hour

Shallow Foundations
Geotechnical Aspects of Shallow Foundation Design: Part One
Structural Design of Spread Footings: Part Two

Bridge Design and Evaluation
Bridge LRFD Design
Bridge Load and Steel Girders
Design of Steel and P/C Girders
Evaluation and Rating of Bridges

Reinforced Concrete Design
Axial Compression and Bending
Development Anchorage and Lap Splices
Flexure & Shear
T-beams and Compression Reinforcement

Mechanical
Introduction to Industrial Robotics
Mobile Robotics: Design and Operation for Real World Applications
Review of Conduction and Radiation Heat Transfer
Review of Convention Heat Transfer
Understanding the Second Law of Thermodynamics for Gases

Electrical
An Overview of Electric Power Systems Engineering
Commercial Nuclear Power Plant Regulation
Electrical Circuit Fundamentals for Power Applications
Fundamentals of Operational Amplifiers
Power Electronics
Solar Power
Symmetrical Components
The Smart Grid: A Primer
Transformers
Wind Power

Power Quality
Power Quality: Fundamentals
Power Quality: 60 Hz Voltage Problems
Power Quality: Harmonics in Power Systems
Power Quality: Transients

Electric Power System Protection
Part One – Fundamentals
Part Two – System Modeling
Part Three – Fault Calculations
Part Four – Hardware
Part Five – Component Protection
Part Six – Line Protection

Electric Motors and Generators
Part One – Fundamentals
Part Two – Three-Phase Induction Machines
Part Three – Power Electronic Control
Part Four – Three-Phase Synchronous Machines
Part Five – DC Machines
Part Six – Single-Phase Induction Machines

Electrical Power Systems
Part One – Fundamentals Review
Part Two – Power Distribution Systems
Part Three – Loads
Part Four – Protection

General Lighting Design
Part One – Fundamentals and Indoor Calculations
Part Two – Design Considerations, Fixtures and Flood Lighting

Signals and System
Part One – Fundamentals
Part Two – Fourier Concepts
Part Three – Analog Transform Concepts
Part Four – Discrete Transform Concepts
