

# 2010 Southeastern Student Conference

## Mystery

### Overview

This competition allows engineering students to display skills in problem solving, communication, and making decisions on a time limited schedule. Some moderate physical activity is required. Official rules will be given at the time of the competition.

### Eligibility

Each school may enter one (1) team consisting of up to three (3) members. The members must be undergraduate students.

### Logistics

Teams will have one (1) hour maximum to complete the competition. Teams will start staggered by alphabetical order.

### Materials

No materials are required for this competition. It is recommended that all students participating wear good walking/running shoes and comfortable clothing for the weather. This competition will be held outside.
