Positions Available –

Engineers and Geologists

GeoSyntec Consultants is a growth-oriented national environmental consulting firm providing innovative solutions in the fields of contamination assessment/remediation, environmental due diligence/compliance, solid waste and water resources. We are seeking top candidates for positions in our offices throughout the Southeastern United States, including Florida and Louisiana. Candidates must have a degree in engineering or geology, as well as superior communication and computer skills. An M.S. and the ability to become professionally licensed are preferred.

About GeoSyntec . . .

Since 1983, GeoSyntec has provided private and public sector clients with earth and environmental sciences consulting services; environmental, geotechnical, and hydrological engineering consulting and design services; and construction management and quality assurance services. We are an employee-owned company with offices throughout the United States and in Canada, Malaysia, and the United Kingdom.

Nationally known for our practice leadership, broad experience, technological innovation, and exceptional client service, our professionals continue to develop new technology applications and practice capabilities. Our applied research partnerships with leading universities, NASA, DOE, DoD, and others are producing better methods for all of our practice areas.

Our professionals, including principals, maintain their focus on their professional practice and client relationships.

GeoSyntec’s goals are to provide the best possible service and value to our clients, to advance technology in our primary practice areas, and to provide a stimulating, progressive, and friendly work environment that will enable us to continue to recruit and retain great staff.
