Doctor of Philosophy in Electrical and Computer Engineering
Qualifying Exam “Part B” Results

This part of the Ph.D. Qualifying Exam is a written exam administered by the candidate's advisory committee at a time to be determined by that committee. At least three faculty members from the committee shall participate in the exam. Questions cover advanced undergraduate and/or first-year graduate material in the candidate's primary area of study, comparable to what might be included in the first year of an MS degree program in that area. The exact format of the exam (number of questions, open vs. closed book, etc.) is left to the discretion of the candidate's advisory committee.

Candidate Name _________________________________
