Continuing Education Workshops at the 2006 AARST Symposium in Kansas City – September 16-17

Four different workshops are being conducted by the Regional Radon Training Centers. Registration is individual for each workshop and must be conducted by phone. See each course description for registration phone numbers to call.

Saturday September 16

Workshop # 1 - Public Speaking for the Radon Professional
Time: - 8 hours - 8am to 5pm with one hour for lunch – on your own
Sponsor: Western Regional Radon Training Center
Lead Instructor: Jim Burkhart
Meets CE requirements for: NEHA-NRPP

Description: Communicating the radon message and educating the public is a role everyone in the industry plays on a daily basis. This course elevates its participants to become dynamic radon advocates, speakers and educators from the one to one level on up to large group presentations. Successful participants may be listed on the NEHA NRPP’s speaker’s bureau.

Registration Fee $125
To Register call 1-877-723-6607

Sunday September 17

Morning – Two concurrent workshops

Workshop #2 - Radon in Karst Regions
Time: 4 hours – 8am to 12 noon
Sponsor: Southern Regional Radon Training Center
Lead Instructor: Jack Hughes
Meets CE requirements for: NEHA-NRPP (pending)

Description: This overview of Karst related issues features case studies and lessons learned from the Tennessee Housing Investigation Training Program in which measurement and mitigation strategies were developed for situations influenced by karst geology.

Registration Fee $75
To Register call 1-800-626-2703
Workshop #3 - New Radon Mitigation Standards and Other Mitigation Issues
Time: 4 hours – 8am to 12 noon
Sponsor: Eastern Regional Radon Training Center
Lead Instructor: Bill Brodhead
Meets CE requirements for: NEHA-NRPP (pending)

Description: This course will review the differences between the EPA RMS, ASTM E2121, and the AARST ASD Mitigation Standard. The course will also cover IRC and NEC codes that pertain to mitigation issues. The final portion of the course will cover mitigation design considerations, mitigation materials and installation tools.

Registration Fee $75
To Register call 1- 732-932-9271

Sunday September 17
Afternoon

Workshop #4 - Getting RRNC Done and Done Right
Time: 4 hours - 1pm to 5pm
Sponsor: Midwest Universities Radon Consortium – KSU
Lead Instructor: Brian Hanson
Meets CE requirements for: NEHA-NRPP (pending)

Description: Radon resistant new construction (RRNC) is an under-utilized marketing area for both radon measurement and mitigation providers. The course will give attendees an overview of RRNC building techniques, testing options, troubleshooting and reduction options for RRNC homes at or above the EPA guideline, and marketing strategies. Participants will leave with a greater understanding of RRNC practices and tools with which to approach area builders concerning RRNC home building.

Registration Fee $75
