RADON is a naturally occurring radioactive gas that can accumulate in enclosed homes, apartments, offices and large buildings such as schools. Radon is believed to cause thousands of cancer deaths each year. In fact, the Surgeon General has warned that radon is the second leading cause of lung cancer deaths in the U.S. today, second only to smoking. The U.S. Environmental Protection Agency (USEPA) and the South Carolina Department of Health and Environmental Control (SC DHEC) recommend everyone test their homes for radon and purchase radon services from a certified measurement or mitigation specialist.

There is a concerted public awareness campaign underway to alert residents to the risks posed by this cancer-causing gas. As this campaign continues there will be an increasing demand for radon measurement and mitigation services in South Carolina, as well as other states. South Carolina DHEC sponsors this training, which will allows SOUTH CAROLINA RESIDENTS to attend at a reduced fee.

For information about the Radon program in South Carolina please contact the Radon Hotline at 800-768-0362 or visit the DHEC website: http://www.scdhec.gov/environment/envserv.radon/htm.

The Southern Regional Radon Training Center (SRRTC) at Auburn University will conduct the training and exam. SRRTC is one of four regional radon training centers located throughout the United States and serves the state of South Carolina, through the US Environmental Protection Agency (USEPA) Regions 4 and 6.

RADON MEASUREMENT TRAINING

The Radon Measurement Training meets the required needs for training before taking the radon measurement proficiency exam. This training provides classroom lectures with slide presentations on all aspects of radon measurements. The training will be held October 11-13, 2006 in Greenville, South Carolina. Refreshments and some lunches will be provided as part of the training, as well as slide note-taking notebooks and other handout materials. American Society of Home Inspectors (ASHI) and the National Association of Certified Home Inspectors (NACHI) recognize this training for continuing education credits.

Typically home inspectors, environmental consultants, pest control inspectors, public health officials, real estate professionals and other desiring to become certified radon measurement specialist, should attend this training.

The measurement training will provide classroom lectures and demonstrations covering some of the following topics:

- Basics of radon entry and behavior
- Radon measurement device protocols
- Quality assurance and quality control
- Physics of radon
- Radon and water
- Basic radon mitigation strategies
- Health effects
- Radon Measurements
- Device Demos
Registration for the radon measurement proficiency exam will begin at 12:45 p.m. on October 13, 2006 and participants will be allowed two hours to complete the exam. The exam fee is $100 for all participants and must be paid before taking the exam. After taking the training and passing the exam, each person is responsible for applying to one of the radon certification programs to become a certified radon measurement specialist. Contact one of the radon proficiency programs for more details on certification. Please note which exam you wish to take for this training on the registration form.

RADON PROFICIENCY PROGRAMS

The National Environmental Health Association (NEHA) National Radon Proficiency Program (NRPP) is recognized as one of the radon certification programs. Contact Angel Price at 800-269-4174 for more details or visit the NEHA/NRPP website at www.radongas.org.

The National Radon Safety Board (NRSB) is also one of the radon certification programs. For more details visit the website www.nrsb.org or call 800-457-2366.

TRAINING AND EXAM LOCATION

All registrants will receive a confirmation package which might include a CD of reference materials, maps, study materials and other information. The training and exam will be held at the Marriott Greenville in Greenville. All participants are responsible for their own travel arrangements. Your confirmation package will include logistical details and a list of other hotels nearby.

Marriott Greenville Hotel
One Parkway East
Greenville, South Carolina

The confirmation package will include more details on hotel location.

RADON CONTACTS AND INSTRUCTORS

Ms. Linda Jackson is the contact person for SC DHEC, and can be reached at (803) 898-3888 or the Radon Hotline (800) 768-0362 or E-mail: Jacksolb@dhec.sc.gov for more information on the SC Radon Program.

Jan Carrington is the SRRTC program manager and can provide more information about the training and exams. To register for the training and exams call (800) 626-2703 or register on the SRRTC website or E-mail: janc@eng.auburn.edu.

Jack Hughes and Harry Grafton are instructors for the regional radon training center network, and will provide the classroom training and demonstrations. Both instructors provide informative presentations for various SRRTC trainings.

The National Association of Certified Home Inspectors (NACHI) recognizes this radon training for continuing education credits. Members of NACHI receive a $25 discount for the radon training. Please note on the registration form if you are a member of NACHI.
