

Alabama Transportation Assistance Program
along with the American Road & Transportation
Builders Association
presents a *webinar* on

Roadway Construction Focus Four and Heat Hazards

Instructed by Robinson Vasquez

July 13, 2023

9:00am – 1:00pm CDT

Suppose you or your workers do not have time for an OSHA 10-Hour Construction class. In that case, this course can help you to focus on preventing the leading causes of fatalities in roadway construction: Falls, Struck-by Vehicles and Equipment, Caught In-Between Heavy Equipment and Excavations, and Electrocution – Indoors and Outdoors. This training provides a section for Heat Hazards and other related health issues in roadway construction.

This webinar is offered at **no charge** to participants; however, **registration is required and limited to 40 participants**. To register please follow this link <https://attendee.gototraining.com/r/2342257066186047232> After registering you will receive a confirmation email containing information about joining the training.

This webinar is offered through a partnership between the American Road & Transportation Builders Association (ARTBA), OSHA, and ATAP. Participants completing this webinar will receive 0.40 Continuing Education Units (CEUs), 4.0 Professional Development Hours (PDHs). Certificates of participation will be emailed after the webinar. Thank you for your continued support of the Alabama Transportation Assistance Program.

Instructor

Robinson Vasquez, LLM, MBA

Robinson Vasquez has worked in the American Road and Transportation Builders Association (ARTBA) as a Safety Training & Business Development manager since 2012. He is an experienced trainer and business manager, responsible for various safety grants and training programs and liaison with the Hispanic construction and safety community in the USA and Latin America. Before joining ARTBA, Robinson served as an attorney, specializing in labor and construction law in his native Peru. Robinson graduated cum laude from the Pontifical Catholic University of Peru, where he earned his law degree in 1993. He also served as a notary of Lima from 1999 to 2007, when he moved to the USA to enhance his studies. In 2009, he graduated with a master's in comparative law or LLM from Brigham Young University; and he also graduated with a master's in business administration or MBA in 2011 from the University of Utah, focusing on the impact of safety in construction businesses, and got his Certification of Instructional Training or CIT in 2022. Robinson participates as a leader and volunteer in different non-profit organizations and is also a qualified ARTBA, OSHA, and NSC master instructor and co-creator of different articles and safety training materials in English and Spanish. During his career, he has provided direct training to more than 20,000 construction workers and stakeholders or the roadway construction industry, protecting lives and resources.
