

Alabama Transportation Assistance Program
presents a workshop

Flagger Training with Field Exercises

Instructed by Scott Tison

Auburn

September 30, 2025

Tuscaloosa

October 1, 2025

Daphne

October 2, 2025

The purpose of this course is to promote safety and the proper use of flaggers for traffic control. Flagger training is important because it promotes safety for you, safety for your work crew companions, safety for pedestrians (including those with disabilities), safety for bicyclists and safety for the motoring public. Much of the information regulating work zone safety is also covered in the Manual on Uniform Traffic Control Devices (MUTCD). The value of the job of a Flagger is VERY often underestimated by the public. Your job sets up everything else for success or disaster. The job of controlling and directing traffic is extremely important and should be carried out with pride. This class will include outside field activities which will include practice setting up a work zone using signs and cones. We will also review and demonstrate proper flagging procedures.

This workshop should be of interest to contractors, and their employees, safety representatives, local and state employees, and all those whose work involves street and highway operations on or adjacent to the roadway.

This four-hour workshop has a **maximum of 40 participants** in each workshop. The cost of the workshop is \$100.00. Please register at <https://aub.ie/2025-09-flagger>. The registration fee includes handout materials, break refreshments, lunch and a certificate of participation. Participants completing this workshop will receive 0.40 Continuing Education Units (CEUs), 4.0 Professional Development Hours (PDHs). Certificates of participation will be issued the day of the event. Thank you for your continued support of the Alabama Transportation Assistance Program.

Workshop Topics

- Qualifications for Flaggers
- High Visibility Clothing
- Hand Signaling Devices
- Types and Colors of Devices
- Traffic Control Devices
- Sign Placement
- MUTCD
- Flagger Stations
- Field Exercises
- Outside Work Zone Setup
- Flagger Procedures
- Summary and Review

Workshop Instructor

Scott Tison

Scott Tison, Associate Director of Technical and Training Assistance for the Alabama Transportation Assistance Program (ATAP), is one of the nation's foremost subject matter experts in construction safety (work zones), roadside appurtenances, and transportation materials. Mr. Tison has worked with various LTAP Centers across multiple states. Mr. Tison is a member of several Transportation Research Board Committees, including Traffic Control Devices (ACP 55), Tison is also a member of the National Committee on Uniform Traffic Control Devices (MUTCD) and has assisted the American Association of State Highway and Transportation Officials (AASHTO) with developing their T3 Curriculum.

Cancellation Policy

We understand that circumstances may arise that could require you to cancel your registration, and we make every effort to accommodate your needs. Due to commitments to our instructors and facilities, the registration fee is not refundable if a registrant withdraws less than five working days before the workshop. You may substitute registrants; please notify us in advance if possible. Non-paid, no-show registrants will be invoiced for the full cost of the workshop. ATAP reserves the right to cancel or modify any program offering but will provide registrants with the option of a full refund. Auburn University will not be responsible for expenses incurred by a registrant as the result of a cancelled or rescheduled workshop.
