

Alabama Transportation Assistance Program
along with the American Road & Transportation
Builders Association
presents a *webinar* on

Electrical and Other Hazards in Roadway Construction

Instructed by Robinson Vasquez

Thursday, July 7, 2022
8:00am – 12:00pm CDT

This four-hour virtual course is created to prevent fatalities and injuries in the roadway construction industry by providing an overview of the focus four hazards, like falls, struck-by, caught-in, and between hazards, emphasizing electrical safety in roadway construction. This course is for workers and operators, as well as leaders responsible for the safety and health of their co-workers in the roadway construction industry. What you will learn:

- Introduction to OSHA
- Overview of OSHA Focus Four – Main cause of fatalities
- Most Common Electrical Hazards in Roadway Construction—what they are and how to avoid them.
- How to prevent electrocution incidents.

Per our grantor's instructions, this training is only for construction workers in the private sector and workers in the public sector responsible for the health and safety of other workers in their agencies.

This webinar is offered at **no charge** to participants; however, registration is required and limited to **40** participants. To register please follow this link <https://attendee.gototraining.com/r/1782754073716166913>. After registering you will receive a confirmation email containing information about joining the training.

This webinar is offered through a partnership between the American Road & Transportation Builders Association (ARTBA) and ATAP. Participants completing this webinar will receive 0.40 Continuing Education Units (CEUs), or 4.0 Professional Development Hours (PDHs). Certificates of participation will be emailed after the webinar. Thank you for your continued support of the Alabama Transportation Assistance Program.

Instructor

Robinson Vasquez, LLM, MBA

Robinson Vasquez works in ARTBA as a Safety Training & Business Development manager since 2012. He is an experienced trainer and business manager, with responsibilities for various safety training contracts and liaison with the Hispanic community in the USA and Latin America. Before joining ARTBA, Robinson served as an attorney, specializing in labor and construction law in his native Peru. Robinson graduated cum laude from the Pontifical Catholic University of Peru, where he earned his law degree in 1993. In 2009, he graduated with a master's in law or LLM from Brigham Young University; and he also graduated with a master's in business administration or MBA in 2011 from the University of Utah. Robinson is a qualified ARTBA, OSHA, and NSC instructor and co-creator of different English and Spanish safety training materials.
