ABOUT THE CONFERENCE

The 2020 Alabama Road Safety Conference will be held virtually on October 19-22, 2020. The move to a virtual conference has not affected its purpose or content. The ARSC is designed to strengthen the knowledge of available tools, countermeasures, and processes to improve safety within your jurisdiction.

The program will run from 10:00 am to 11:30 am and 1:30 pm to 3:00 pm on Monday through Thursday during the week of October 19. It will provide an opportunity to earn up to 12.0 Professional Development Hours (PDHs). Session themes include Safety Assistance Programs, Roadway Maintenance, Rail Crossing Safety, Transportation Technology, Safety Planning, Intersection Safety, Safety Resources, and Vulnerable Road Users. Attendees will be able to attend any combination of sessions they choose, and then submit that information to ATAP so their attendance certificates can reflect the correct number of PDHs. Certificates will be emailed upon completion of the PDH electronic form.

PROFESSIONAL DEVELOPMENT

Participants in this conference will be able to attend up to twelve (12) hours of technical programs. Auburn University makes every effort to ensure that its technical programs conform to the requirements of the State of Alabama Board of Licensure for Professional Engineers and Land Surveyors for the award of Professional Development Hours to support the annual renewal of professional licensure.

REGISTRATION AND FEE

Registration for the conference may be made at the following link. https://aub.ie/registerARSC2020
Fees: $50.00 Registration beginning October 1, 2020
